In this exclusive interview, we speak to the ghost of Qin Shi Huang, the first emperor of China. He shares his thoughts on his life, his empire, and his legacy.

**Q: Emperor Qin Shi Huang, thank you for taking the time to speak with us today.**

**A:** It is my pleasure.

**Q: You are known as the first emperor of China. Can you tell us a little bit about your life and how you came to power?**

**A:** I was born in 259 BC in the state of Qin. My father was the king of Qin, and I became king myself in 246 BC. I was a very ambitious ruler, and I set out to conquer all of China. I was successful in this endeavor, and in 221 BC, I became the first emperor of a unified China.

**Q: Your reign was marked by a number of significant achievements, including the construction of the Great Wall of China. What was the purpose of the Great Wall?**

**A:** The Great Wall was built to protect China from invasion by nomadic tribes from the north. It was a massive undertaking, and it took many years to complete. But it was successful in its purpose, and it helped to keep China safe for centuries.

**Q: You are also known for your terracotta army, which was buried with you in your tomb. What was the purpose of the terracotta army?**

**A:** The terracotta army was created to protect me in the afterlife. I believed that I would need an army to defend me from my enemies, even after I was dead. The terracotta army is a magnificent sight, and it is one of the most important archaeological discoveries in Chinese history.

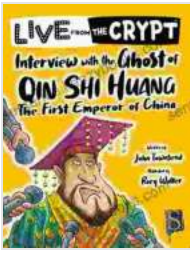

**Q: You were a controversial figure, and your reign was marked by both great achievements and great atrocities. How do you view your own legacy?**

**A:** I am proud of my achievements, but I also regret some of the things that I did. I was a ruthless ruler, and I did not always treat my subjects fairly. But I believe that I ultimately made China a stronger and more prosperous country.

**Q: Emperor Qin Shi Huang, thank you for your time.**

**A:** It has been my pleasure.

Qin Shi Huang was a fascinating and complex figure. He was a brilliant military strategist and a ruthless ruler. He left a lasting legacy on China, and his achievements continue to be admired today.
