

The Great War Through Maps: A Visual Journey of World War I

World War I, often referred to as the Great War, was a global conflict that lasted from 1914 to 1918. It was one of the deadliest conflicts in human history, with an estimated 9 million military personnel and 7 million civilians killed. The war was fought on multiple fronts across Europe, Africa, and the Middle East, and it had a profound impact on the political, social, and economic landscape of the world.

Maps were essential tools for understanding the complex and ever-changing nature of the Great War. They were used by military commanders to plan their campaigns, by diplomats to negotiate peace treaties, and by civilians to track the progress of the war and the fate of their loved ones.

Chapter 2: The Western Front

The Western Front was the main theater of operations during the Great War. It stretched from the North Sea to the Swiss border, and it was the site of some of the war's most intense and bloody battles.

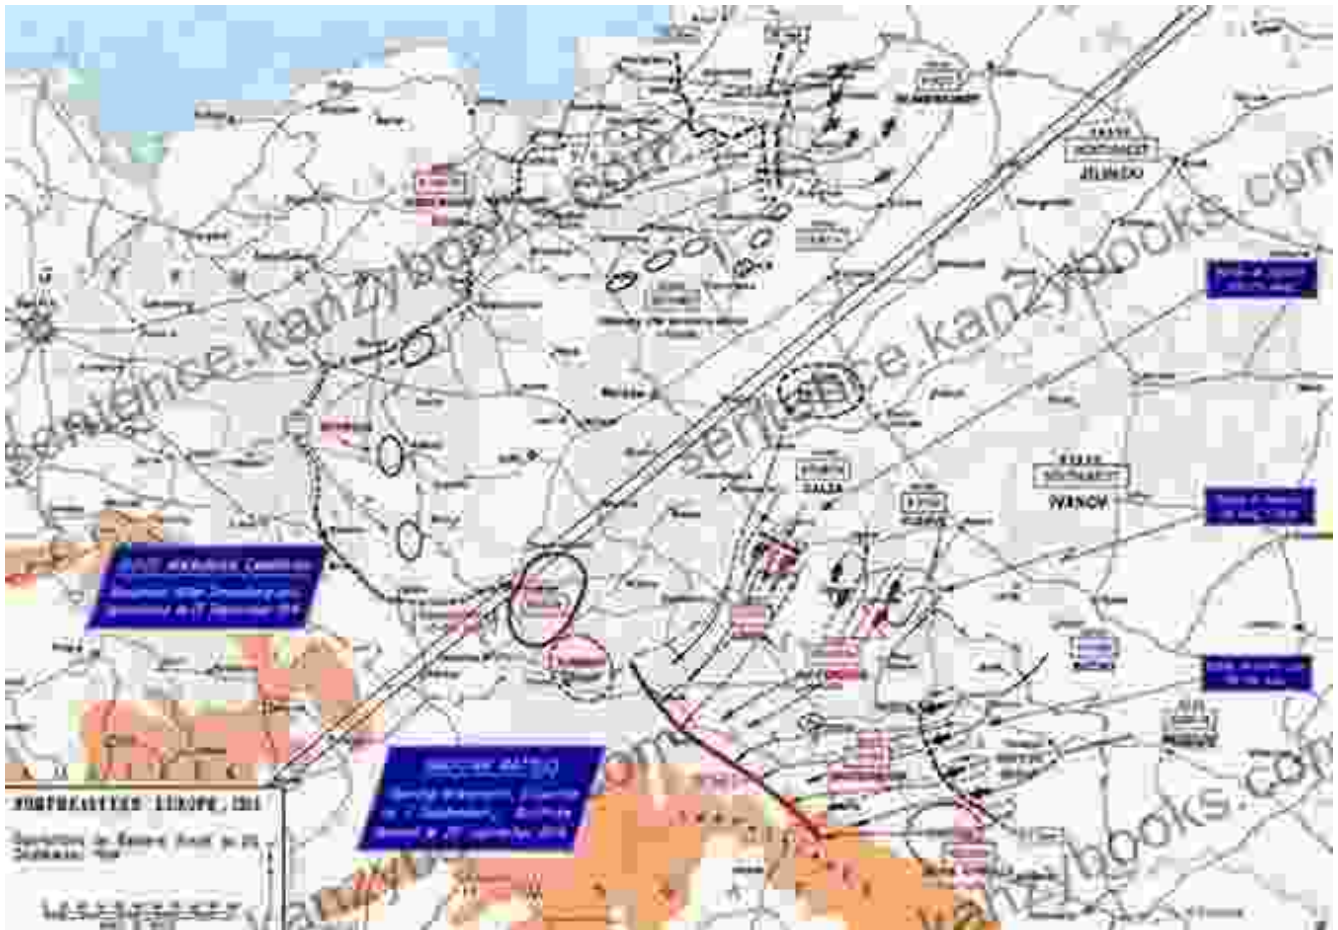

The following map shows the Western Front in 1914.

Chapter 3: The Eastern Front

The Eastern Front was another major theater of operations during the Great War. It stretched from the Baltic Sea to the Black Sea, and it was the site of some of the war's most brutal fighting.

The following map shows the Eastern Front in 1914.

Chapter 4: The Mediterranean and the Middle East

The Mediterranean and the Middle East were also important theaters of operations during the Great War. The British Empire, France, and Italy all had significant interests in the region, and they fought a number of campaigns to secure their control.

The following map shows the Mediterranean and the Middle East in 1914.

Chapter 5: The End of the War

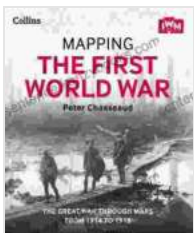

The Great War ended on November 11, 1918, with the signing of an armistice between the Allies and Germany. The war had a profound impact on the political, social, and economic landscape of the world.

The following map shows the territorial changes that resulted from the Great War.
